

# C-9401N Conventional Sounder Strobe

# **Description**

C-9401N conventional sounder strobe can give audile and visual notification signal when powered by 24VDC, connected with fire panel to build an alarm system.

### **Terminals and Installation Holes**

V+: 24VDC Positive V-: 24VDC Negative

# **Recommended Cabling**

1.0mm² or above fire cable is recommended, but subject to local codes.

# **Technical Specification**

Operating Voltage	24VDC(20V ~ 28V)
Standby Current	0
Alarm Current	≤160mA
Flashing Frequency	1.1Hz∼1.8Hz
Alarm Volume	80dB~115dB(Due front 3m horizontal (A weighted))
Operating Temperature	-10°C ~ +50°C
Relative Humidity	≤95%, non condensing
Dimension	144mm×90mm×60.5mm(with base)
Mounting Hole Distance	65mm

## **Ordering Information and Compatible Products**

Part No.	C-9401N
Device Name	Conventional Sounder Strobe
Product No.	10106617
Compatible	GST102A – GST116A Conventional Panels
Products	DI-9305E Digital Single Riser Module

IMPORTANT: This publication is a generic version in which product information is shown for informational purposes only and does not constitute a specific commitment or guarantee. We are constantly pursuing the improvement of product technology to improve product performance, for which we reserve the right to adjust the configuration and technical information of the related products without notice. In addition, the description of system performance in this publication applies only to the usual situation. As a result, there may be a variety of unpredictable special circumstances in the real world, so the realization of the relevant product performance will depend on the professional investigation and analysis and the design plan. Please contact us and we will be happy to provide you with professional advice.
